Elliott's Buildings Pennsylvania Avenue, near Jackson Hall, which they offer to the American public as a sure antidote for Consumption, in its chanced as well as incipient stages. Acting directly upon the LUNGS, and arresting their decay, it not only soothes and quiets at once the distress and pain attendant upon this hereto fore regarded fatal disease, but restores the lungs and their sympathising organs, to natural and healthy action. Accompanying each package are general instructions and directions (translated) for its use, adapted to all cases, and if strictly followed, will not fail, in every instance—if the lungs are not wholly consumed—of restoring to health which may be permanently secured by future care and avoiding too much exposure to atmospheric changes.

### COLLETON BITTERS

THESE Bitters are purely a vegetable com-pound, and are offered to the public from principle of benevolence, under the fullest convic-tion that they will be found a safe and sovereign comedy for Dyspepsia. They have been trium-hantly tested, not only by some of the most re-pectable families and physicians in the State of South Carolina, who have furnished ample testinouy as to their decided excellence, but also by the proprietor, who, for ten years, suffered all the gloom incident to that stubborn and distressing disease.

They possess the peculiar excellence, denied to most other Bitters, of not proving injurious by continued use. They contain not a single deleterious

ANOTHER WONDERFUL CUKE!

PRILABELPHIA, April 9, 1846.

Last August a year, I caught a violent cold, in consequence of getting wet in a shower of rain. A circumstance so common gave me no immediate concern, supposing that I should soon get rid of it. On the contrary, however, I daily grew worse; a violent cough set in, then pain in my breast and between my shoulders. I now suffered great oppression from the great secretion of purulent matter in my lungs. I became greatly alarmed; and my friends considered my situation extremely. ingredient, and, as seen from the directions which ccompany each bottle, may be given with entire to an infant in the month

Charleston, S. C., I was compelled to send a servant to the city. On his return, he was suddenly attack-ed with most violent pain in his bowels, so much so as to cause apprehension that he would expire in a short time, if medical aid could not be procured. I immediately resorted to the Colleton Bitters, by giv-ing a wine glass full at a dose. In the course of a very short time it acted as an emetic, and throwing him at the same time into a profuse perspiration. I then continued to give it in small doses, from two to three tea spoonsfull, which resulted in a happy re covery. Since then I have been using it constantly in my family, in cases of cholera morbus, cholera infantum, diarrhora and general debility, and in every instance found it highly beneficial. Some constitutions, however, require much larger doses

JOS. D. JENKINS. Bluffton, S. G., 1846.

It is with feelings of gratitude as well as pleasur that I take this method of giving my testimony of the great estimation which I entertain for your invaluable compound. In justice not only to the me-dicine, but for the benefit of others who may be suffering from the same malady, Dyspepsia, with which I was for years afflicted, I feel it a duty incumbent health. When I commenced taking the Colleton Bitters it was as a last resort. My debility from indigestion was so great that a cure was looked upon as almost hopeless. After taking it regularly and perseveringly for some time, my strength and di-gestive powers were entirely restored. I have never taken a single dose of any other medicine for more than five years past. I can now eat the richest food without any unpleasant feelings whatever. I have also used Colleton Bitters freely in my family for cholera i afantum, cholera morbus, general debitity, and as a tonic after fever, with great success. As a family medicine I deem it invaluable, and do conscientiously recommend it.
